PE and Sports– Report of Success 2015-16

Sports Premium money has allowed the school to continue the support for staff and pupils to achieve sporting success over the year.

Successes include:

- Silver School Games Mark award (up from Bronze last year)
- Over 30 teams entered into inter-school (Level 2) competitions
- Continued development of School Games Organising Committee
- Involving more children in the delivery of Level 1 competitions
- Involving more children in the participation of Level 1 competitions
- Winning 27 medals (11 gold, 9 silver and 7 bronze) across a number of Level 2 competitions, finishing 4th in the medal table.
- Finishing 6th on the School Games participation table (participating in 37 Level 2 events)

School Games Mark

This year we improved our School Games award from Bronze to Silver. Examples of the criteria that we had to meet are listed below:

**Aspire to 2 hours of PE and sport provision a week*

All classes take part in 2 hours of PE each week. This involves a mixture of gymnastics, dance and sports. In addition to this, we run competitions within school and offer a variety of after-school clubs for children to take part in.

**Children are engaged in extracurricular sporting activity every week*

47% of children attend clubs after school. This figure is higher than previous years and shows that we are continuing to offer good provision after-school.

**Taking part in 5 Level 1 competitions and 4 Level 2 competitions*

We attended 31 Level 2 competitions throughout the year. Within school, Level 1 competitions included football, tennis, archery, cricket and boccia.

**5% of young leaders leading, managing and helping run a School Games activity*

Throughout the year we had over 30% of the children involved in the leading, managing and running of activities.

**Have a School Games organising crew and young ambassadors to promote sport in school and organise sports competitions*

Our Young Ambassadors helped with running events within school ours as well as after-school. They also helped with the running and management of the Sainsbury's School Games Day.

**Opportunities which attract less active young people to participate in physical activity*

We held a number of activities within school that attracted less active young people. This included inclusive activities such as boccia and multi-skills, which are run by the Young Sports Ambassadors.

Sports Premium Funding 2015-16

We have utilised the money as follows:

	Amount	Impact
Ashfield School Sports Network	£650	The organisation of after-school events and competitions gave the pupils a competitive environment in which to use the skills they have developed within school PE sessions. Setting up the Young Ambassadors has also meant that competitions and activities (competitive or not) have taken place within school time – the school's YA have also gained invaluable leadership skills whilst leading a selection of pupils in management of activities. This contribution allows PE leaders to meet regularly during the year to share information and contacts.
Cyber Coach	£286	Cyber Coach has been used within school to support the teaching of PE. It has a substantial dance section where high quality dance teachers demonstrate the different techniques in different dances. It leads to higher quality PE sessions. Teachers are also encouraged to use these to improve their own teaching. The second use of the system is as warm ups to the day/lessons, with its range of brain teasers and energetic starters – leading to an increase engagement before lessons.
Multi-skills After-school club	£832.20	Throughout the year, we were able to offer a multi-skills club which was ran by two members of the midday team. This club allows KS1 pupils to have an additional hour of PE per week, allowing them to enhance their basic skills as well as involving them in a competitive environment from an early age.
Additional Provision - YMCA - Swimming	£13,869 £20, 196 plus contribution from school funds	Contributing towards swimming allows for every child within KS2 to go swimming for a minimum of 8 sessions per year. In KS1, children attend swimming sessions throughout the year.
CPD - iMoves Dance - Primary PE and Sport conference	£195 £95	Dance is an area that staff commonly felt less confident delivering and by investing in CPD in this area raise staff confidence and in turn improved the quality of teaching. By attending the Primary PE and Sport conference it allowed subject leaders and specialists to share good practise and talk

		about available opportunities. This lead to a wider range of activities being offered to the children in school.
Equipment and Resources		Equipment is important and improves the teaching of the different techniques required in different sports/activities. All of the equipment is vital – particularly the Boccia set which was a new sport that the school got involved with and increased extra-curricular participation of children on the SEN register. Teaching new activities and having the correct equipment engages both children and staff in the teaching and participation.
- Handballs	£15.95	
- Ultimate Frisbees	£209.10	
- Boccia Set	£67.95	
- Table Tennis	£32	
- New Age Kurling	£274.80	
Sports week		Paying for a diverse range of sporting providers allowed children to try sports that they may not have previously been able to access. Certain specialists, specifically the basketball coaches, created a genuine interest for the sport that will continue to develop throughout their time at Edgewood. The climbing wall and slacklining providers gave upper KS2 a unique “Outdoor Adventure” opportunity.
- Football Freestyler	£175	
- Badminton day	£100	
- Believe Dance Academy	£150	
- Basketball Wow day	£150	
- Climbing wall and Slacklining	£1022	

Sports Premium Funding 2016-17

This year will look to utilise the funding as follows:

1. Improving the teaching of PE

Throughout the academic year, we will employ PE specialists to teach PE lessons in school. These specialists will work throughout all Key Stage 2 classes. As part of Continued Professional Development, staff are able to observe PE sessions to improve the quality of their PE teaching. In addition, we will look to buy into a commercial scheme of work that helps staff plan, deliver and assess the PE lessons they teach.

2. Increasing participation

We contribute to the School Games Network which supports the School Games Organiser within the district, who provides more events on the school games calendar and liaises with PE coordinators. The SGO promotes better links with school PE departments, permits the use of Secondary school facilities for competitions and organises festivals and events.

- Our Young Ambassadors receive training through the School Games Network which teaches them about leadership and the management of activities. They actively target less-active children with activities such as Boccia and Multi-skills events, and the introduction of “B-Team futsal”. They also organise inter-school challenges and activities throughout the year.
- Target less-active children through a Change for Life fundamentals programme, delivered by external specialists.
- Sainsbury’s School Games Day with the help of the Young Ambassadors and the Organising Crew.
- Edgewood Sports Week, which will offer a variety of exciting sports and activities for children to get involved with.
- We aim to or participate in a range of Level 2 events, taking various children to the competition. This will be assisted through good teaching within lessons, and enthused children putting themselves forward for competitions, clubs and events.
- Continue to use the funding for transport to and from events.
- Offer additional after-school PE and sports clubs to children.

- Investing in new playground markings will encourage children to participate in a range of sports, outside their allocated 2 hours of provision. Playground markings will also support the sports' ambassadors in organising Level 1 competitions.

3. Improving quality of equipment and resources

This year, we are looking to increase the interest that children have for PE and sport. We will endeavour to spend the Sports Premium funding on events that are wide-ranging and offer the children a unique opportunity to attempt an activity or learn a new skill, for example: Skateboarding and Zumba. In addition, we will look to replenish any equipment that is no longer fit for purpose, to ensure the best possible delivery of PE.

Key Stage 2 Medal Table 2015-16

School	Gold	Silver	Bronze	Total	School	Gold	Silver	Bronze	Total
Croft Primary	16	14	6	36	Kingsway Primary	1	3	8	12
