

Edgewood Primary School

Building skills and values for life

PE and Sports Report 2018-2019

Sports Premium money has continued to provide high quality sports provision for the children by investing in the following:

- Appointment of Year 6 Sports Captains
- Specialist PE providers for the delivery of Key Stage 2 PE curriculum
- Involvement in the Ashfield District Sports activities and competitions
- Year 5/6 Football Team participating in the Interschool Ashfield District League
- Weekly after school clubs
- Sports' Week 2019

Next Level Sports

Next Level Sports have continued to provide the delivery of the PE curriculum for this academic year, for Key Stage 2 children. As part of the Key Stage 2 WITLO week, two members of the Next Level team were observed delivering a session to both Year 5/6 and Year 3/4. Both sessions were of a very high quality, where all children were engaged and actively involved in sport for the entire session. Feedback from other members of staff has also been extremely positive.

Continued Development of Level 2 competitions

Where possible, Edgewood have entered into some sessions held by Ashfield District Sports. At the events we have attended, the children have really enjoyed participating and have done well. Our aim was to provide the opportunity to attend events for more year groups across the school, which due to staffing and lack of volunteers, this has not always happened. However, Next Level Sports have offered to attend events with the children where possible.

Sports' Week 2019

Sports week 2019 was a huge success. Events ran over the week, including: inflatables, cricket, archery, dance, gymnastics, lacrosse, clubbercise, ultimate frisbee and a boot camp. Again, Next Level sports were our providers for most of these activities and did a great job of getting all children from across the school involved. Feedback from the children was that they really enjoyed it – especially the clubbercise!

The Daily Mile

As part of Sports Week, the Daily Mile was introduced. This was worked out to be six laps of the school field and each class achieved this at least three times over the course of sports week. Children had a huge sense of achievement once they had completed it, with many members of staff seeing the benefits in the children; some of which included perseverance, resilience and increased confidence as the week went on.

Sports Spending 2017-18

In the last academic year, as a school we received £29,527 Sports Premium Funding. Here is a breakdown of what we spent as a school in order to give our children a range of sporting opportunities.

Area of spending	Cost	Purpose
School swimming	£18,594	From F2 to Y2 all children are given the opportunity to swim on a weekly basis to secure water safety skills and develop a range of strokes. These skills are consolidated in lower KS2 with over 10 hours of swimming for all children in years 3&4.
Specialist Coaching	£20,640	Employing specialist coaches to deliver our Key Stage 2 PE allows the children to receive a higher quality of sports provision. The sessions follow units of work and develop the key objectives outlined in the National Curriculum. Teaching Assistants are present during these lessons and are able to observe and learn from the coaches. The coaches have offered advice for how TA's can be interacting with children with poor mobility and might not be able to access the session as well as their peers.
Sports Week	£1,701.46	Each year we allocate a significant proportion of our funding to organise a week of sports for the children. We worked with our PE providers to ensure children have the opportunity to access a range of sports that they may not usually have access to.
District Membership	£750	Each year we buy into our local School's Game District which offers a range of Level 2 competitions. The membership also provides support to our PE co-ordinator and Year 6 sport's leaders.
Interschool Ashfield District Football League Membership	£50	This allows our key stage2 children to take part in local football tournaments with other schools in the area.
Total spending: £41,735.46		

Sports Premium Funding 2019-20

Next year will see a change in PE Leadership but as a school we are likely to utilise the funding as follows:

1. Improving the teaching of PE

We are continuing to use Next Level Sports to teach all Key Stage 2 PE, in which TA's will be encouraged to observe and support their own Professional Development. Key Stage 1 and Foundation Stage 2 will continue to have access to the interactive planning tool which will support them in the planning and delivery of PE units.

2. Increasing participation

We will continue to contribute to the School Games Network which supports the School Games Organiser (SGO) within the district, who provides more events on the school games calendar and liaises with PE coordinators. The SGO promotes better links with school PE departments, permits the use of Secondary school facilities for competitions and organises festivals and events. We will endeavour to utilise the services of the SGO to upskill our Sport's Captains in the delivery of Level 1 competitions.

Using the external providers we will rotate our after school clubs to ensure a wider range of children are including in sporting activities. Similar to this year, the clubs will continue to follow the School Games Calendar and we aim to participate in a range of Level 2 events. In order to achieve another academic year of high participation, we will need to allocate a proportion of the Sports' Premium Funding to cover the cost of transport.

Hopefully Sports' Week will continue to feature in the 2019-2020 academic year, which ensures that all children within school participate in a range of sporting activities.

3. Improving quality of equipment and resources

Having spent a considerable proportion of our Sports Premium Funding replenish and improve our equipment in the 2015-2016 academic year, we are in a fortunate position that we have a well-stocked PE cupboard. We regularly check, and replace, any equipment that is no longer fit for purpose to ensure the best possible delivery of PE.

As mentioned, we intend to offer a cycling proficiency course to our younger children. This course takes place on balance bikes which we will look to purchase, along with necessary safety equipment, to allow children to consolidate their skills.
