

Edgewood Primary School

Building skills and values for life

PE and Sports Report 2016-2017

Sports Premium money has allowed the school to continue the support for staff and pupils to achieve sporting improvements over the year.

Improvements include:

- Continued involvement of Sports Captains
- Involving more children in the delivery of Level 1 competitions
- Involving more children in the participation of Level 1 competitions
- Purchase of IPeP (online support to improve delivery and assessment of PE) raising the quality of PE curriculum
- Inclusion of Foundation Stage 2 in after school clubs
- Development of school playground
- Sports' Week 2017

Development of Multi-skills after school club

The weekly after school club proved to be a continued success with a significant proportion of Key Stage 1 choosing to attend. As a result, we were one of the few schools that were able to enter two teams in the regional qualifier. For the first time in several years we were able to offer the club to the children in Foundation Stage 2, of which over half of the children attended.

Development of School Playground

Following discussions with school council and the sport's captains, both playgrounds have had activities painted onto them. There have been two versions of hop-scotch, a throwing target, a basketball half court, a mirror me activity and a 9-square painted onto the playground nearest to school. On the far playground we chose to have the outlines re-painted, but opted for internal grid lines to help deliver a wider range of sports. Two 9-squares were also included on this playground.

Sports' Week 2017

This year's Sports' Week proved to be as popular as last year and children were given the opportunity to try Karate, Dance, Judo, Gymnastics, Yoga, Climbing, Slacklining and Football Freestyle. The summer fair was held on the Monday afternoon, making use of the three inflatables, to help raise the profile of Sports' Week. This year we also offered a range of after school activities for children to attend with their parents.

Year 6 Swimming

Due to our very fortunate position of having our own shallow, training pool, the school pays for all our F2 and KS1 children swim every week for approximately 20 minutes as part of teachers' PPA provision. We then fund 10.5 hours swimming at the main pool in Hucknall for all our Year 3 and 4 pupils during their time in Key Stage 2.

For these reasons our children are generally proficient swimmers by the time they leave 3/4 so, from 2016-17 our Year 5 and 6 do not swim in school time. A poll of the children showed that 87% of the Year 6 could swim 25 metres unaided (83% of the Year 4 managed the same distance unaided).

Sports Premium Funding 2017-18

This year will look to utilise the funding as follows:

1. Improving the teaching of PE

Throughout the academic year, we will employ PE specialists to teach PE lessons in school. These specialists will work throughout all Key Stage 2 classes. As part of Continued Professional Development, staff are able to observe PE sessions to improve the quality of their PE teaching. In addition, we will look to buy into a commercial scheme of work that helps staff plan, deliver and assess the PE lessons they teach. Key Stage 1 and Foundation Stage 2 will use the IPeP service that we have bought into to aid with delivery of PE, but will continue to assess using the current systems.

2. Increasing participation

We contribute to the School Games Network which supports the School Games Organiser within the district, who provides more events on the school games calendar and liaises with PE coordinators. The SGO promotes better links with school PE departments, permits the use of Secondary school facilities for competitions and organises festivals and events.

- Our Sport's Captains receive training through the School Games Network which teaches them about leadership and the management of activities. They actively target less-active children with activities such as Boccia and Multi-skills events, and the introduction of "B-Team futsal". They also organise inter-school challenges and activities throughout the year.
- Target less-active children through a Change for Life fundamentals programme, delivered by external specialists.
- Sainsbury's School Games Day with the help of the Young Ambassadors and the Organising Crew.
- Edgewood Sports Week, which will offer a variety of exciting sports and activities for children to get involved with.
- We aim to or participate in a range of Level 2 events, taking various children to the competition. This will be assisted through good teaching within lessons, and enthused children putting themselves forward for competitions, clubs and events.
- Use a larger proportion of the funding for transport to and from events; in attempt to tackle the number of competitions we pulled out of last year.
- Offer additional after-school PE and sports clubs to children.

3. Improving quality of equipment and resources

This year, we are looking to increase the interest that children have for PE and sport. We will endeavour to spend the Sports Premium funding on events that are wide-ranging and offer the children a unique opportunity to attempt an activity or learn a new skill. In order to achieve this, we aim to meet regularly with the sport's captains to hear the interests of children and offer sports that are of current interest. In addition, we will look to replenish any equipment that is no longer fit for purpose, to ensure the best possible delivery of PE.
