

## Happy New Year from Amarillo, Rosa and Verde classes!

Here is an overview of the topics we will be covering in the first half of the spring term:

**English:** The children will be looking at how advertisements try to persuade people to buy products and services. As well as creating their own adverts, they will also write persuasive letters based on our history topic.

**Maths:** We will begin the spring term by looking at factors before moving on to multiplying and dividing by 10 and 100. There will be large emphasis placed upon solving problems which involve multiplication and division before we go on to study fractions.

**Science:** This half term, the children will carry out a number of fun science investigations with the aim of building their investigation skills.

**History:** Our spring topic looks at the history of mining in the local area. If you have any photographs or stories about any family members who were miners in Hucknall, we would love to hear from you!

**D.T:** Designing and creating sorting machines

**R.E:** The parables told by Jesus

**Computing:** Using PowerPoint to create a multimedia presentation which acts like a website

**P.E:** Invasions games (Tag Rugby) and dance (Hip-hop)

If you have any questions about the work we will be doing, please pop in and see us as we will be more than happy to help.

Thank you for your support.

Miss Cross Mr Curtis, Mr Moss and Mrs Norgate
