

# Edgewood Primary School

## Building skills and values for life

### Friday 22<sup>nd</sup> October

This week in class the children have created their own story 'The Three Little Crabs' which is available to view on our class webpage. Please look at this with your child and encourage them to tell you the story. Next week we will be reading 'The Three Billy Goats.'

### Maths

This week we have focussed on learning our numbers 11-20 by recognising them and counting out the correct number of objects. Next week we are focussing on addition and solving simple number problems such as 'If Sarah has 3 apples and Joseph has 4, how many apples do they have altogether?'

### Wow moments

Another sheet has been attached for your use. When your child does something different for the first time, please fill it out and send it in to your child's teacher. At Edgewood Primary we view parental involvement in their child's education as vital to their learning and development. Each milk time we share any wow moments sent in, which the children really value. Thank you for your support with this.

### Our Community

The children have been thinking about important buildings in our locality which we need such as food, shops and doctors. As you walk or drive round Hucknall, please talk about the different buildings you can see.

### PE and Swimming

Both subjects are important for your child's education and are a valued aspect of the curriculum. Unless there are particular concerns, all children are expected to take part. Please speak to your child's teacher if you have any questions.

### Bingo games

If you feel your child knows all the letter sounds or words in your game, please speak to a member of staff so we can provide the next level.

Thank you for your continued co-operation.

Mrs Bradley, Mr Ward, Mrs Wyatt.
